FOR IMMEDIATE RELEASE

*For an eye opening experience, check out the New Filmmakers Showcase at <http://www.digitalcinemareport.com> on November 1. The featured film will be the trailer for **God Wears My Underwear** (2005/2006) by indie filmmakers **Leslie Streit** and **Robin McCain**.*

Here's the lowdown on this visually stunning film:

Lavinia has been haunted all of her life by dreams about people and places she has never experienced. As she stands waiting for a train, she ponders her confusion about her sexuality and her strange belief that she is the reincarnation of a Tibetan Monk who saw the rise of Nazism in the 1930's.

*What counts in this film is the dreamlike visual presentation and the unusual use of archival footage. One critic has described it as “**digital art occult documentary**”.*

*French New Wave Director, **Agnes Varda** (Vagabond, The Gleaners & I, Cleo from 5 to 7) called it “**brilliant**”.*
